FlexPasser™

Tendon Retrieval Kit

For atraumatic retrieval
of severed flexor
tendons with minimal
incisions.

The FlexPasser™ Tendon Retrieval Kit is a system of single use instrumentation for the retrieval of the proximal tendon stump(s) during the repair of lacerated digital flexor tendon(s) in the hand.

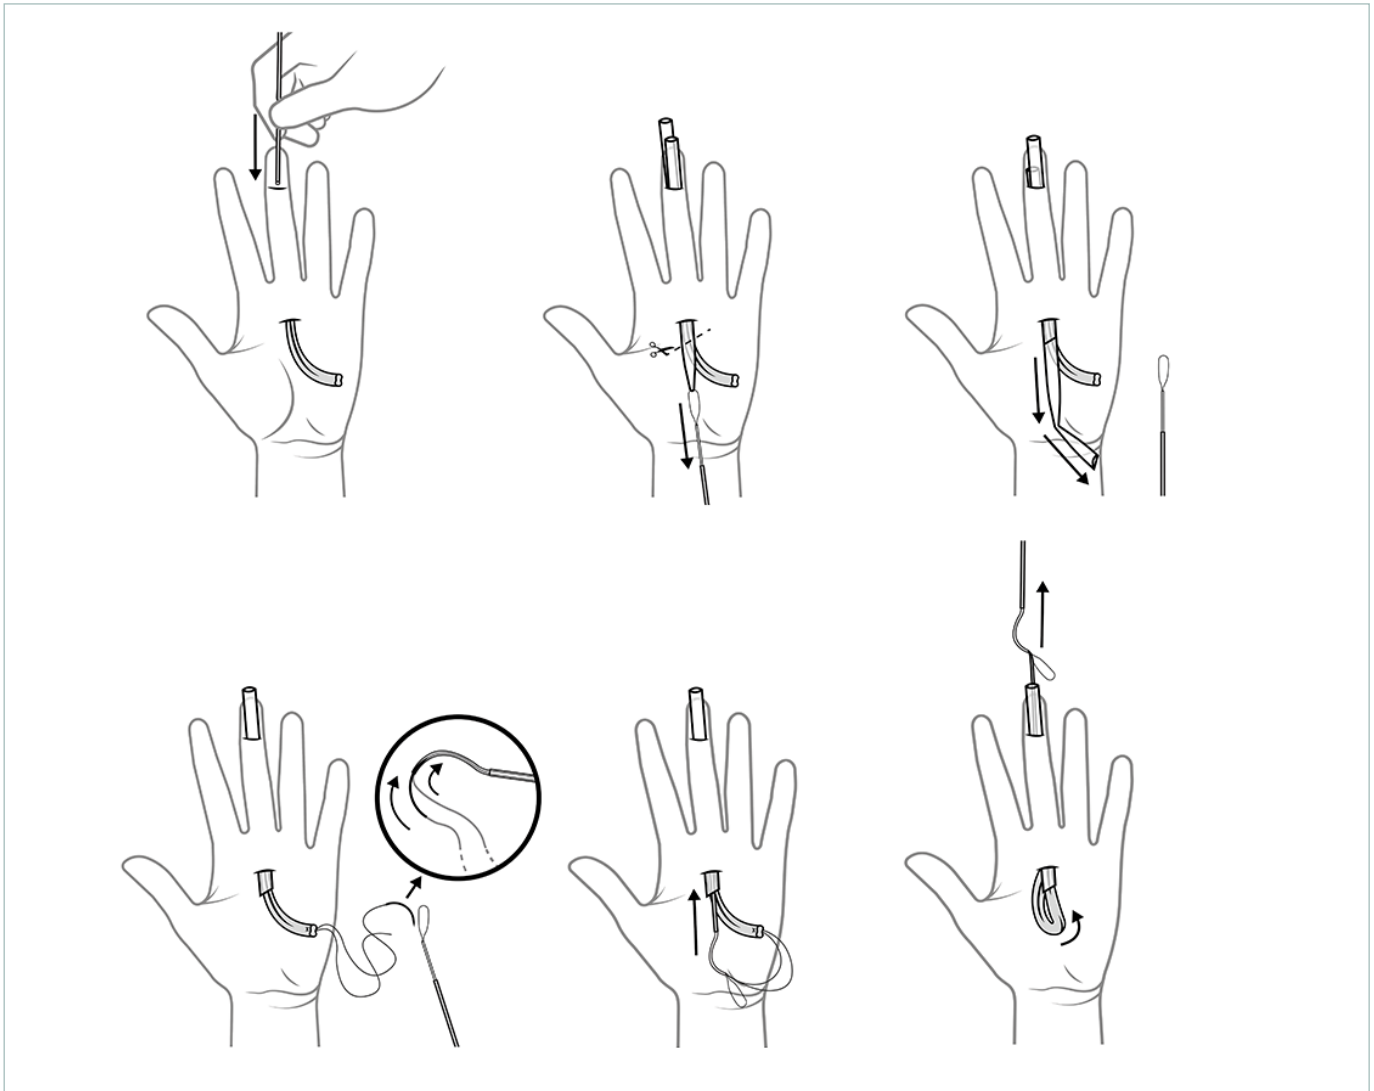

- Retrieve retracted tendon end with minimal incisions
- Reduce the risk of damage to tendon end compared to standard technique*
- Avoid the need for repeat suturing of the tendon end
