Why Infinity-Lock Button System?

- Use the Infinity-Lock Button System for AC joint separation requiring a simple and replicable operative solution.
- One size fits all, eliminating potential for mis-sizing and stocking issues.
- Woven polyester implant utilizes medical manufacturing techniques supported by over 30 years of data.
- Titanium alloy Button provides high strength, low profile fixation on the clavicle.
- Device and surgical technique designed by leaders in upper limb surgery.
- Infinity-Lock Button System is a strong and reliable alternative ACJ repair method.
